EXAMPLES OF DIFFERENT STRATEGIES WITH RESOURCES

FEEDBACK OF EMBEDDED RESOURCES

<u>STEMIE STORYBOOK</u> <u>CONVERSATIONS</u>

EXCEPTIONAL CHILD

<u>WORKING WITH</u> <u>FAMILIES &</u> <u>COMMUNITIES</u>

"During the course, I particularly enjoyed learning about how to accommodate children with special needs.. I have some previous experience working in special education and working with adults with disabilities but that was prior to joining the army, so a couple years ago. I greatly enjoyed working in that field. The connections I was able to make and the lessons I learned have really stuck with me. I really love having to be creative and find a way to modify a classroom or activity to meet an individual's needs while still achieving a common goal. I enjoyed that our curriculum placed an emphasis on special needs students. There was a lot of information available about this topic, which I did not necessarily expect in an early childhood education course."

Hierarchy of Adaptations

- Environment
- Materials
- Instruction

Story Book Conversations with Your Young Child

- Page fluffers
- Tactile outlines
- Binding change
- Picture cues

- Page protection
- Text simplification
- Personalization
- Prop bags/boxes

Personas

- Personas are short snapshots of individual children, which provide information about the configuration of the child's family, offer insights about the child's likes or interests, and share information about the child as a learner.
